

VINEET KAUR

BUSINESS ANALYST · DATA & PROCESS TRANSFORMATION

✉ vineetkaursethi@gmail.com 📞 437-981-4189 📍 Brampton, ON

PROFESSIONAL SUMMARY

Business Analyst with 2+ years of experience supporting business operations, requirements documentation, workflow improvement, and system validation across rental management and non-profit domains. Experienced in translating business needs into BRD/FRD documentation, coordinating with cross-functional teams, and supporting UAT and process changes in Agile. Strong background in customer service and operations support, with hands-on experience in JIRA, Azure DevOps, Excel, Power BI, and Dynamics 365 CRM.

TECHNICAL SKILLS & TOOLS

Project & Dev	Azure DevOps - wiki, JIRA, MS Visio, SharePoint
BI & Analytics	Power BI, Tableau, Excel (Data Models, Forecasting, Pivot Tables)
CRM & ERP	Microsoft Dynamics 365 CRM, Great Plains, Dynamics Finance & Operations
Testing & QA	UAT, Smoke Testing, Test Case Design, Requirements Traceability
Methodologies	Agile Scrum
Productivity	Microsoft Office Suite — Word, Excel, PowerPoint, Visio

PROFESSIONAL EXPERIENCE

Sales Team Lead

Best Buy Canada · Oakville, ON · Aug 2019 – Dec 2020 | Mar 2023 – Sep 2025

- ▶ Gathered and documented operational requirements from department managers and floor supervisors to define process improvement initiatives across sales, inventory, and service workflows.
- ▶ Implemented KPI tracking practices and performance reporting to improve team accountability and productivity.
- ▶ Conducted root cause analysis on recurring customer escalations and operational gaps; documented findings and recommended corrective actions to store leadership, driving a 30% efficiency improvement.
- ▶ Led team of 22 associates, delivered 125% of sales targets through data-driven analysis and strategic process improvements aligned to business objectives.
- ▶ Drove 25% repeat customer growth through cross-departmental strategy alignment across Product, Operations, and Service teams.
- ▶ Managed daily operations, handled customer inquiries, and resolved service issues in a fast-paced retail environment.
- ▶ Collaborated with operations and support teams to improve customer experience and streamline store processes.

Business Analyst

Alphavima Technologies Inc. · Toronto, ON · Dec 2020 – Mar 2023

Prexa365 Rental Management Software (Microsoft Power Platform)

- ▶ Gathered, analyzed, and documented business requirements for system enhancements, workflow improvements, and defect fixes.
- ▶ Supported day-to-day business operations by analyzing user issues, identifying solutions, and coordinating with technical teams for resolution.
- ▶ Translated business problems into clear BRD/FRD documentation and process workflows for development and testing teams.
- ▶ Maintained requirement status and delivery tracking using JIRA and Azure DevOps throughout the change lifecycle.
- ▶ Identified process gaps and improvement opportunities in rental management workflows, contributing to a 30% reduction in quote-to-rental cycle time.
- ▶ Designed and implemented a preventive maintenance module that reduced asset downtime, increased utilization, and cut overdue maintenance by ~50%.
- ▶ Collaborated with stakeholders across operations, finance, sales, and development to assess business impacts, dependencies, and priorities.
- ▶ Supported UAT, smoke testing, and solution validation to ensure changes met business and quality expectations and tracked and documented all changes in Azure DevOps to keep them visible to the team.
- ▶ Assisted in developing Power BI dashboards to track rental income, maintenance costs, customer satisfaction, and retention KPIs.

Non-Profit Software (Volunteer / Donor / Grant Management)

- ▶ Facilitated discovery workshops and stakeholder interviews with non-profit program managers and operations staff to gather requirements for donor management, volunteer tracking, and grant reporting modules.
- ▶ Produced use cases, user stories, and acceptance criteria in JIRA to guide Agile sprint delivery; participated in sprint planning, backlog refinement, and retrospective ceremonies.
- ▶ Created MS Visio process diagrams documenting donor onboarding, grant approval workflows, and volunteer lifecycle to support solution design and client sign-off.
- ▶ Authored business cases and functional specifications; reduced client onboarding time by 30% through improved process documentation and training materials.
- ▶ Delivered Power BI dashboards for donor retention trends, donation forecasting, and volunteer hours tracking, enabling real-time performance monitoring for program leadership.

ERP Proof of Concept (Great Plains → Dynamics F&O)

- ▶ Conducted gap analysis and data mapping across procurement, inventory, accounting, and payroll modules to identify migration risks and define requirements for the Dynamics F&O ERP implementation.
- ▶ Developed current-state and future-state process documentation in MS Visio, supporting the technical team's migration strategy and executive stakeholder reviews.
- ▶ Centralized requirements and performance documentation for cross-functional teams using Azure DevOps and SharePoint, ensuring version control and traceability throughout the POC.

EDUCATION

Master of Science (MSc), Electrical & Computer Engineering – Lakehead University, Thunder Bay, Ontario, Canada.

Projects: Retail Sales Dashboard - Accenture North America (Forage) | Nov 2024

- ▶ Modeled multi-source data to identify trends and support business recommendations.
- ▶ Created Excel and Tableau based presentation for executive-level decision-making.
